

## Levianete Bible

### I. Christ as Healing the People, the Women and the People of Israel

Christ is walking, Christ levitates in water, he is with St. Matthew - Paul agrees and travels to Greece.

### II. Christ's Spiritual Difficulties

Christ is busy in the water, in the Aegean, trying to heal himself.

### III. Antiquity

Greek swimming pools and Turkish baths. Christ has discovered his people marching across.

Christ is aegyptologist - in Egypt there is a figure of his difficulties - labouring masses, but actually only his liberation - Christ draws on a page a convoluted figure - he means that it is long term healing, which then means - Christ points to the truth - he means Wittgenstein.

Simple language and profound truth - both as suffered and experienced but also Leviatene - a levity.
